

## 12-channel intelligent module in the distribution box

## 12-channel intelligent module in the distribution box

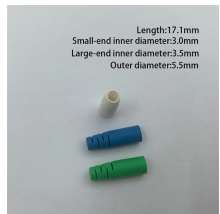

DC 52 Amp 12 Channel Power Distribution Module, Rocker Switch, Fused, Pluggable Top Wiring Terminal Block, DIN Rail and Screw Mount \$56.00 \$70.00

Available in multiple channel configurations—4, 6, 8, 10, and 12 channels—with options for staggered or wide-spaced jacks, the boxes support interface types such as M8 and M12.

SonnePower offers two 12-channel CAN bus I/O modules designed for high-performance, distributed control applications in harsh environments. Both modules feature a compact aluminum housing, IP67 ...

SPC-SDIO-S1212 Intelligent Distributed IO is an economical smart distributed IO developed by SonnePower. This product has 1 CAN bus and 12 IO resources, with high port versatility.

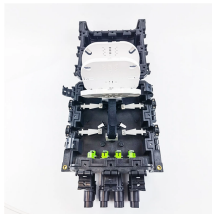

Available in multiple channel configurations—4, 6, 8, 10, and 12 channels—with options for staggered or wide-spaced jacks, the boxes support interface types ...

The ZT1204 12-Channel Power Distribution Box provides reliable power management with three-phase, five-wire AC380V input and dual circuit breaker protection, making it suitable for various load types.

The Murphy Intelligent Xpansion™ Power Distribution Module (PDM) expands CAN bus control networks by replacing existing relay and fuse boxes with more reliable solid-state switches that can ...

The IX3212 Intelligent Xpansion™ power distribution module (PDM) expands CAN bus control networks by replacing existing relay and fuse boxes with more reliable solid-state switches ...

SonnePower offers two 12-channel CAN bus I/O modules designed for high-performance, distributed control applications in harsh environments. Both ...

Product details The 12 Channel Smart Power Distribution Unit Panel is a versatile home automation module designed for efficient power management. Built with a steel enclosure and Schneider Electric ...

The C12 is a 12-channel power distribution unit, built for demanding production environments where safety, visibility and uptime are critical. Each channel is protected by a high performance 16A/30mA ...

The LDperformance PDM / PMU is a 12-channel intelligent power management unit designed to replace traditional fuses and relays. Featuring solid-state outputs, real-time current monitoring and full CAN ...
