

1G AI Server Available Now

1G AI Server Available Now

Enterprise adoption of AI is now mainstream, and organizations need end-to-end, AI-ready infrastructure that will accelerate them into this new era. Our GPU servers are designed to provide optimal ...

Get AI models and tools such as DeepSeek or Ollama running on our dedicated GPU servers and tag us on Hugging Face for a shout-out of your favorite Projects.

Buy GPU dedicated server with NVIDIA/AMD GPUs, full root access, high bandwidth, and instant deployment. Ideal for AI, rendering & heavy workloads.

Equipped with NVIDIA L40S, H100, and A100 GPUs and optional advanced interconnects like NVLink and NVSwitch, these servers deliver exceptional performance for enterprise AI tools such as CUDA, ...

First AI's Hyperplane HGX server, with NVIDIA H100 GPUs and AMD EPYC 9004 series CPUs, is now available for order in First AI Cloud Clusters, starting at \$1.89 per H100 per hour!

Explore our wide range of AI server with GPU, from H100 and A100 to RTX series. Cost-effective AI hosting for training, LLM inference, and generative AI projects.

We have a wide variety of hardware options available for you. You can order from our list of auto deploy servers or customize the hardware configuration you need.

Powered by the latest NVIDIA Blackwell architecture, AMD EPYC or Intel Xeons processors, our GPU optimized AI servers deliver unbeatable performance and scalability for your most demanding ...

All servers come preconfigured to support leading AI frameworks, including TensorFlow, PyTorch, JAX, and ONNX. Environments are container-ready and driver-optimized to eliminate compatibility issues ...

Our systems come pre-loaded with your favorite AI Dev tools like Docker, TensorFlow, PyTorch, and more upon request. Our systems are validated to perform straight out of the box.
