

200 Mbps fiber optic connection with a K2P router

Overview

Yes, you can often use your existing router with fiber optic internet, but there are crucial considerations. Understanding compatibility, potential limitations, and when an upgrade is necessary will ensure you get the most out of your high-speed connection. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process. Why Use Fiber Optic Internet?

Before diving into the setup, let's quickly. Since Kinetic is both a fiber internet and DSL provider, you need to first determine which type of service is available at your home to ensure you shop for compatible equipment. Kinetic doesn't maintain a list of approved internet equipment, so we've done the research for you.
