

25G Multimode Optical Module

25G Multimode Optical Module

Enhance the networking infrastructure with this Cisco®-compatible 25GBASE-SR optical transceiver, ensuring reliable performance and seamless connectivity at distances of up to 100m.

The 25GbE multi-mode fiber module (SFP28) excels in bandwidth-intensive tasks such as virtualization, efficient data migrations, high-performance storage, high-performance computing (HPC), and rapid ...

Optimized for data rates up to 28.0 Gbps per SFP28 channel in 25GBASE-SR1 (Short-Range Multimode) and 25GBASE-LR1 (Long-Range Single Mode) variants. Our 25-Gigabit Ethernet SFP28 ...

SFP28 transceiver that supports 25G connections up to 100 m using multi-mode fiber with a duplex LC UPC connector.

The Cisco 25GBASE-ER Module supports a link length of 40 kilometers on standard Single-Mode Fiber (SMF) G.652 at 25G. The module requires RS-FEC on the host ports for full ...

Offering a comprehensive range of 25G solutions, our lineup includes SR, LR, ER, and ZR transceivers, along with their industrial-grade versions. Additionally, we provide 25G BIDI modules and CWDM, ...

Featuring a duplex LC connector and 850nm TX and RX wavelength, this SFP28 optical module is designed to deliver up to 25 Gb/s transfers over distances of up to 328 feet using multi-mode fiber ...

FS 25G SFP28 optical transceiver solutions offer a wide variety of high-density and low-power connectivity options for 25 Gigabit Ethernet, telecom, and data center.

Reliable, high-performance solutions for fast data transfer in modern networks and data centers. The 25GBASE-SR SFP28 850nm 100m DOM Duplex LC/UPC MMF Optical Transceiver Module is a high ...

25G multimode optical modules are mainly used for short-distance data transmission, with high transmission rate and cost performance.
