China-Chile Optical Cable

China-Chile Optical Cable

Humboldt Cable is a planned fiber optic submarine communications cable that will connect Chile with Australia, becoming the first-ever link between South America and the Asia-Pacific region.

SANTIAGO, Chile, March 3 (UPI) -- A Chinese-backed submarine fiber-optic cable project has triggered a diplomatic dispute and an unprecedented political rift in ...

The trigger is the Chile-China Express, a proposed submarine fiber-optic cable from Valparaíso to Hong Kong backed by China Mobile, HMN Technologies, and Hengtong Optic-Electric ...

Just as China Mobile readies its cable, Google has announced the Humboldt project: a \$400 million, 14,000-kilometer undersea cable connecting Sydney to Chile via French Polynesia. Both projects ...

The Humboldt cable system forms a transpacific subsea cable route connecting Australia, the French Polynesia and Chile over two fiber pairs, with a total system capacity of approximately ...

Chile's outgoing and incoming presidents clashed over a proposed Chinese fiber-optic cable fiercely opposed by the US, tainting what is normally a staid transition with rare acrimony days...

Chile's outgoing president, Gabriel Boric, and its incoming president, José Antonio Kast, clashed over the Chile-China Express project, a proposed Chinese submarine fiber-optic cable that ...

China has decided to accelerate its "Digital Silk Road" initiative, signing an agreement with Chile for the "Chile-China Express" project. On paper, it's a digital fiber-optic highway that will directly ...

U.S. concerns about a proposed Chinese fiber-optic cable linking Asia with South America under the sea led to a spat Tuesday between Chile's outgoing left-wing president and his ...

SANTIAGO, Chile, March 3 (UPI) -- A Chinese-backed submarine fiber-optic cable project has triggered a diplomatic dispute and an unprecedented political rift in Chile just days before the...

Will he bow to US pressure to nix a project to link China and Chile across the Pacific via an undersea fiber optic cable? Or will Kast, who took office Wednesday, revive an initiative...
