China Unicom produces optical cables

Overview

China Unicom boasts a network comprising over 20 terrestrial optical fiber cable border stations that link China with more than 10 neighboring countries and regions. Recently, the first new global carrier “Large Effective Area Fiber” (LEAF) (ITU-T standard code G. E) fibre cable land application engineering project whose application test was participated in by Yangtze optical fibre and Cable Joint Stock Limited Company (Stock Code: 6869. HK, hereinafter. Hengtong, in collaboration with China Unicom, has successfully deployed and begun operating China Unicom's first commercial hollow-core fiber optic cable line. This hollow-core fiber cable is now serving a dedicated line for a bank branch in Jiangsu, where it has been integrated into the live. China Unicom achieved a global milestone with the first single-wave 1. 2Tbps commercial transmission validation. The ADC cable strengthens Asia-Pacific connectivity and sets a benchmark for international collaboration along the Belt and Road Initiative. 15 optical fiber and cable companies shared this large order of 65. 7859 million core kilometers of optical cable. This project represents Cambodia's inaugural.
