Climbing Curve Bridge

Climbing Curve Bridge

Hermit crab climbing bridge with an arch pathway designed to add climbing and enrichment to your tank. This hermit crab bridge gives crabs a place to climb, explore, and move across different areas of the enclosure.

The bridge's curving posts and knobby path evoke exotic wonder while its strong guardrails and netting provide easy grips for safe journeys across. On this structure, tykes will imagine themselves living ...

We specialise in making durable Curved bridges for ideal garden pond usage. Our Curved style garden bridges need no maintenance and are made with sustainable timber.

Assembly time: 2 hours Number of installers: 2
Concrete: 0,15 m3 Measurement - largest part: 140 x 14 x 83 cm Weight - heaviest part: 40 kg
Smart Robinia:

I've had these bridges for a couple of years already. We made two curved, and one smaller flat bridge. I kind of want to make a railing on them, but we'll see! It would look cool if it was rustic, or just ropes. ...

The Curved Post Floating Bridge is a fun way for kids to cross from one side to the other. Its unique design, with curving posts and a knobby path, appeals to children's imaginations.

Kids will flock to the Curved Post Net Bridge for that wobbly, giggly challenge that builds balance and coordination with every step. The arched side rails, open-weave rope walkway, and tall curved posts ...

Kids will love climbing across or over top this bridge as it encourages their creativity and problem solving skills while physically engaging their balance and coordination. This climber is very durable and can ...

Engineered for lasting outdoor use and daily play, this freestanding playground climber delivers safe, active fun year after year. Thoughtful details like the curved support posts, suspended pebbles, and ...

The Curved Post Floating Bridge is a fun way for kids to cross from one side to the ...

In this guide, I'll show you step by step how to design and build this custom stone bridge in Enshrouded -- from the solid base and pillars to the elegant arch and final details.
