

Construction of Cold Aisle Computer Room in Sierra Leone

Overview

Short video describing the work of Engineers Without Borders Denmark's current Fact Finding project in regards to Cold Room Storage. The video presents the two young professionals Rune Holse & Christopher Vedelsby doing their volunteer fieldwork, having meetings, and spending. The Lungi Cold Storage Facility Project is a strategic investment initiative aimed at strengthening Sierra Leone's agricultural export infrastructure. The facility will provide modern, temperature-controlled storage and logistics services, supporting the air freighting of horticultural products. Storage facilities are limited in Sierra Leone. It is possible to find them in Freetown but it becomes more difficult to locate inside the country. These storage facilities. Our aisle containment systems are designed to optimize energy use and enhance airflow management in data centers, both new and existing. Call for Expression of Interest for the Supply and installation of two (2) fully functional Cold rooms for two (2) different sites TEUSL1. Standard sizes fit common aisle widths and heights while custom widths and heights can be easily accommodated.
