After the physical laying of the cable between Martinique and the central Cuban province of Cienfuegos has been completed, the Ministry reports that the connection process and further tests ...

An agreement signed between ...

According to the Ministry, the linking process and future tests are currently underway, after having concluded the physical laying of the cable across the sea, between Martinique and the ...

The installation of an underwater fiber optic cable from Martinique to Cienfuegos seems to be the great telecommunications project in Cuba.

While Cuba is located in one of the areas with the highest density of submarine fiber optic cables, it has problems accessing the Internet, as most of its connections come via satellites.

The expected improvements in connectivity and internet speed in Cuba have not clearly materialized. Additionally, political tensions and security concerns between Cuba and the United ...
