Distribution box users

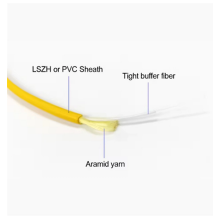

Overview

Beginning in August 2023, managing distribution groups will no longer be possible from Outlook on the web. Administrators should manage their organization's distribution groups in the Exchange.

Distribution box users

This article will help you understand what shared mailboxes and distribution lists are, and what to do when you are added to one.

A distribution list or group is a feature in email systems that allows you to send a single message to multiple people at once. Instead of typing in each person's email address individually, ...

MS365 groups, Distribution Lists, and Shared Mailboxes are various forms of collaborative emails. Each are similar, but have differences which make each better suited towards specific tasks. This guide is ...

Microsoft 365 Groups are similar to distribution groups in that they allow you to communicate with multiple people in one email message, and they also come with a shared mailbox, calendar, ...
