

Dominica Energy Internet Construction

Overview

This project is designed to support the Commonwealth of Dominica in developing and integrating clean, sustainable and low-cost energy. 5 million project, a new robust transmission network will be built to withstand natural hazards, strengthening Dominica's electricity. During the budget address on Friday, Finance Minister Dr Irving McIntyre revealed four major game changer projects for the island. Vince Henderson the construction of a transmission system for the government's development of the geothermal and hydro-power infrastructure is essential to Dominica's development. He made the statement while delivering remarks at the contract signing ceremony. This is the Energy Report Card (ERC) for 2023 for the Commonwealth of Dominica. The ERC also includes sectoral data and information on policies and regulations; workforce; training and capacity building; and related areas. Dominica's freshwater utility is in the process of being upgraded as well.
