

Elevator Main Power Distribution Box

Elevator Main Power Distribution Box

Download the 18-Point Checklist for Code-Compliant Elevator Installations prepared by Littelfuse experts. Depend on Littelfuse for fully code-compliant standard and custom-designed electrical ...

Elevator switch power supply is a critical component in modern elevator systems, providing stable and efficient power conversion for various elevator subsystems.

Top and bottom cable entry. Modular system with Customized design to meet end user requirements.

We are a professional company engaged in electrical automation, committed to providing customers with integrated power distribution and automation solutions for high and low voltage electrical control ...

Elevator control panelboards are designed to integrate electrical power distribution, elevator control and fire alarm system components in a common, standard enclosure.

As the “central power hub” for Mitsubishi NexWay, ELENESSA, and MAXIEZ series elevators, this power box converts and distributes stable electrical power to core subsystems: main controller, ...

Elevator control panelboards integrate electrical protection and controls for elevators and meet stringent code requirements in a single, cost-effective package.

Siemens Elevator Control Switch (ECS) is designed to interrupt incoming AC power upon receiving a signal from a Fire Alarm Control Panel (FACP) for both cable and hydraulic elevators. The Elevator ...

Model NO.

As the “central power hub” for Mitsubishi NexWay, ELENESSA, and MAXIEZ ...

Eaton's Elevator Control panelboards provide electric power distribution with integrated fusible switches, metering, and surge protection. Additionally, they're designed to meet UL 67 and NEMA PB1 ...
