

## Film Communication Product Testing and Certification

### Overview

AVIXA is the trade association for the professional audiovisual industry worldwide, offering training, certification, job boards, conferences, and more. We can provide professional safety, EMC, radio & wireless testing and global market access certification services, as well as energy efficiency testing and certification for the following product categories (non-exhaustive list):

Multimedia equipment (MME) refers to electrical consumer products. These organizations manage film and video licensing, digital and physical distribution, content packaging, subtitle and format management, platform coordination, royalty reporting, and release scheduling across cinemas, broadcasters, streaming platforms, and regional partners. When it comes to film applications, the first thing our team does is perform an audit of the current materials and application processes. Join us to connect across our community, gain and share insights and expertise, get inspired, find solution providers and so much more! For our March '26. This document is a Compliance Test Plan developed by Digital Cinema Initiatives, LLC (DCI). The DCI copyright notice must be included in all reproductions, whether in. SMPTE is the global society of media professionals, technologists and engineers

working together to drive the industry forward technical brilliance.
