

Foundry Metal Spectrometer

Foundry Metal Spectrometer

Alkali metals and certain alkaline earth elements require spectral coverage extending up to 800 nm. A modern foundry spectrometer must span the entire analytical spectrum without blind spots.

Spectrometers are often the instrument of choice for foundry metal analysis as they require only minimal intervention from foundry operators when used for inspection, quality control, ...

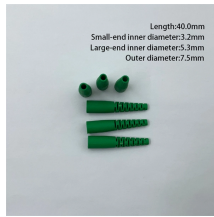

The SPECTROMAXx ARC/SPARK OES analyzer delivers fast, accurate elemental analysis in metal producing and fabricating plants, and iron and non-ferrous foundries.

Find your foundry spectrometer easily amongst the 8 products from the leading brands (Hitachi, SPECTRO, Belec, ...) on DirectIndustry, the industry specialist for your professional purchases.

The FOUNDRY-MASTER Smart is the ideal solution for the metal production and processing industry, providing cost-effective, reliable analysis. These new generation optical emission spectrometers offer ...

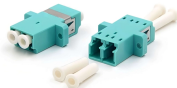

The system analyzes all ferrous metals and alloys, and analysis of aluminum, nickel, and copper is available on request. The instrument is based on optical emission spectroscopy (OES), the analyzing ...

The Metavision range of OES offers a complete solution for steel testing, including top-end models for primary OES spectrometer solutions in large plants and more cost-effective units for ...

Carpenter Brothers, Inc. is the leading supplier of equipment, consumables, and technical expertise for the metal casting industry. Founded in 1917, by Everett and Milton Carpenter, the brothers were able ...

The FOUNDRY-MASTER Smart 2 delivers lab-grade precision for ferrous and non-ferrous metal analysis in a compact, durable format without the complexity or cost of high-end systems.

Engineered for high performance and reliability, the new FOUNDRY-MASTER PRO, with its innovative optical system and extended wavelength range, assures precise identification and trace analysis of ...

Network Cabinet & Rack

The FOUNDRY-MASTER Smart is the ideal solution for the metal production and processing industry, providing cost-effective, reliable analysis. These new ...
