

Four zeros of the optical power meter

Overview

The Power 1400 Series optical power meter provides fast, accurate monitoring of signal power from -60 to $+10$ dBm across a wavelength range of 750 to 1700 nm. Its logarithmic amplifier design eliminates the gain jumps typically encountered with multi-stage linear amplifier. Below are general answers on typical components of an optical power meter product from the list of GAO Tek's optical power meter. com OLS Series Light Sources, OPM Series Optical Power Meters, and Related Test Kits User's Guide www.com/go/NOYES or 1-800-321-5298/1-603-528-7780.
