

## House with electrical distribution box in Congo

### Overview

This article examines the real challenges of African factory power systems and presents a practical Congo distribution cabinet design case featuring a 5-channel intelligent interlock solution. Reliable medium- and low-voltage power distribution is a critical foundation for mines, processing plants, and supporting infrastructure in remote regions. It also explains how E-abel, as a professional electrical enclosure manufacturer, provides customized. The MCA Group is proud to announce that we have expanded our operations into Africa with the first subsidiary company being MCA Congo SARL registered in 2022 in the Democratic Republic of Congo. Congo Energy offers products that reduce consumption while optimising the quality of installations. We specialize in cost-effective, energy-efficient solutions that empower businesses, industries, and individuals to optimize power.
