

# **Imported AOC Active Optical Cable NRZ**

## Imported AOC Active Optical Cable NRZ

Last updated on Apr 29, 2026.

10Gtek® AOC is SFP+ MSA compliance, low power consumption and lightweight, which can be used as an alternative solution to SFP+ passive and active copper cables, while providing improved signal ...

Our All Active Optical Cables Collection provides a complete portfolio of AOC solutions from 10G to 400G, ensuring that your network is equipped with reliable, efficient, and future-ready connectivity.

The QSFP DD AOCs operate up to 25Gb/s NRZ modulation and provide solutions up to 200Gb/s aggregate bandwidth, supporting 100meters over parallel multimode fiber. They are an ideal ...

Our All Active Optical Cables Collection provides a complete portfolio of AOC solutions from 10G to 400G, ensuring that your network is equipped with reliable, ...

The main use of the cable is linking one 100G QSFP28 port to four 25G SFP28 ports, supporting 100G-to-4x 25G Ethernet interoperability. Featured with low latency, low power consumption, and high ...

The GIGALIGHT 100G QSFP28 pluggable active optical cable assemblies support 100GBASE-SR4 Ethernet and InfiniBand EDR data rates.

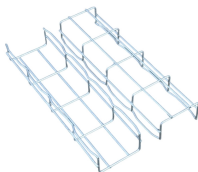

This series of products uses 8 pairs of parallel multimode optical fiber transmission, and the distance can reach up to 70m (OM3) or 100m (OM4).

The main use of the cable is linking one 100G QSFP28 port to four 25G SFP28 ...

Our active optical cable assembly portfolio provides greater cable flexibility and longer reach, as compared to both traditional passive copper solutions and emerging active copper (ACC/AEC) ...

Molex's Active Optical Cables (AOC) offer significant cost advantages over traditional optical modules. Additionally, AOCs can easily be substituted by interfacing to systems via a broad range of standard ...

This series of products uses 8 pairs of parallel multimode optical fiber transmission, and the distance can reach up to 70m (OM3) or 100m (OM4).

NADDOD 100G QSFP28 AOC achieves 100Gbps transmission rate through 4 channels (4x25.78Gbps). It is a reliable, cost and power efficient integrated solution, ideal for high-density signal transmission ...
