

Indian Telecom Shelter Outdoor Type

Overview

Prefabricated Telecom Shelters are robust, modular structures designed to house and protect sensitive telecommunication equipment. Constructed with durable materials, these shelters ensure reliable performance, security, and weather resistance. Satec is one of the leading. Telecom Network Solutions (TNS) specializes in providing RF and transmission solutions, along with the installation and commissioning of Base Transceiver Stations (BTS), which are essential for telecom infrastructure. Additionally, TNS has its own manufacturing unit for telecom towers and shelters.
