

KF86 Relay Protection Comprehensive Tester

KF86 Relay Protection Comprehensive Tester

The KF86P Universal Relay Test Set is a lightweight, high-power tester designed for both smart and traditional substations, offering high accuracy and compliance with IEC61850 standards.

Compact 6-phase relay test set with high accuracy & full solution (complying IEC61850 sampled value and GOOSE), fully meet all the requirements for detection and debugging of IEC61850 IEDs, Merge ...

Accessories Operating temperature Complete with standard test set accessories. 4mm shrouded banana sockets for AC/DC generators and binary inputs/outputs.

As a highly flexible solution for protection relay testing, the Kingsine KF86P universal relay test kit utilizes innovative technology, module design, and a simple internal structure, ensuring a higher level ...

The KF86P is a multifunctional relay protection tester of only 10 kg, because of the innovative new technology, not only has a powerful current and voltage source output, but also has a powerful ...

KPM relay testing equipment with high current rating, precision & advanced software. Ideal for distance, differential, df/dt & protection relay testing.

Compact 6-phase relay test set with high accuracy & full solution (complying IEC61850 sampled value and GOOSE), fully meet all the requirements for detection and debugging of IEC61850 IEDs, Merge ...

Important information:, Compact 6-phase relay test set with high accuracy & full solution (complying IEC61850 sampled value and GOOSE), fully meet all the requirements for detection and debugging ...
