

LED Magnetic Integrated Power Supply

LED Magnetic Integrated Power Supply

Used for magnetic track lights with power ratings of 100W or 200W. It converts AC power input of 180-265V to DC output of 48V. This power supply is designed for linear non-dimming LED lights and ...

The power supply has an integrated magnetic connection, allowing it to snap directly to the magnetic track. This tool-free installation means that the power supply can ...

Encased in a high-quality metal enclosure that includes multiple 7/8" knockouts for easy installation. Each unit is equipped with auto-reset circuit breakers to protect both the driver and the LED load. An ...

LEDQuant's M24V-150W-DC is one of the most compact LED drivers on the ...

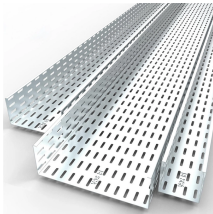

Klein Tools' rugged PowerBox uses powerful magnets to easily mount anywhere in the metal job box or other magnetic surface, and includes built-in hanging holes ...

Certified by CE EMC LVD SELV ROHS.----We focus on producing safe & premium power adapters. No noise, low temperature operation, no spontaneous combustion, no explosion, no fire hazard.

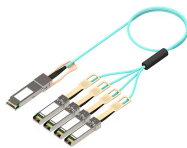

LEDQuant's M24V-150W-DC is one of the most compact LED drivers on the market with a magnetic transformer core. It is equipped with auto-reset breakers, one on the input and one on the output, ...

This power supply is compatible with all magnetic style dimmers from Lutron, Leviton, Crestron, Control4, Savant which are commonly used in home and commercial lighting installations.

Klein Tools' rugged PowerBox uses powerful magnets to easily mount anywhere in the metal job box or other magnetic surface, and includes built-in hanging holes for fixed mounting locations. Easily ...

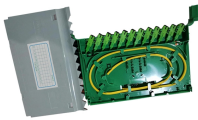

Installer-Friendly Design:Features an integrated junction box, multiple knockouts, and bare wire connections for easier code-compliant installation. Wiring diagram included in product images.

Encased in a high-quality metal enclosure that includes multiple 7/8" knockouts for ...

Housed in a durable metal enclosure with built-in circuit breakers and integrated junction box, this ETL-listed driver supports TRIAC/MLV phase dimming for smooth lighting control in outdoor environments.

The power supply has an integrated magnetic connection, allowing it to snap directly to the magnetic track. This tool-free installation means that the power supply can be easily added or repositioned ...

Power range from 15W to 200W, High efficiency with sufficient power 2 hours 100% full-load burn-in test before shipping; OVP, OLP, OTP, and short circuit protection programmed Aluminum case ultra-thin; ...
