

Large OTD Fiber Optic Tester

Pre-Terminated Patch Panel

- Multi-application support
- Flexible configuratvion
- Modular design

Cable Gland Plug
28mm Cable Gland Plug

MPO-LC up to 96 cores
MPO direct connection 48 ports

Mounting Bracket
Semi-open mounting holes

Large OTD Fiber Optic Tester

Jonard Tools' Multi-function OTDR is the perfect all-in-one handheld device for evaluating FTTx and access network construction and maintenance, identifying fiber breakpoints, measuring cable length, ...

Pocket-sized and performance packed, AFL optical time domain reflectometers (OTDRs) and fault locators certify new fiber installations and locate faults in deployed fiber optic networks. Easy ...

Most reviews highlight its accuracy and the convenience of having multiple functions in one device, especially appreciating the built-in analysis software. Easily compare & choose from the 10 ...

Fiber testers provide the precision needed to install, certify, and maintain high-speed optical networks. This category includes OLTS certifiers, OTDRs, optical power meters, light sources, and visual fault ...

When you need to test fiber optic cables in the field, you'll want a tester that handles multiple functions without slowing you down. You can choose from devices that combine optical ...

Featuring a large 7-inch color touch screen and a highly integrated platform, the FHO5000 supports multiple wavelength and dynamic range configurations with built-in OTDR, Visual Fault Locator ...

The ultimate fiber optical test and diagnostic tool for network engineers, system installers and outside production technicians, the Complex TL-1605 OTDR (optical time domain reflectometer) is the cost ...

Our selection includes essential tools for measuring, testing, and ensuring the reliability of fiber optic networks. From power meters to OTDRs and inspection scopes, you'll find the right equipment to ...
