

Myanmar Blue Light Laser Diode Module

Myanmar Blue Light Laser Diode Module

405nm 200mw~500mw DC 12V blue-violet laser diode module with cooling fan.

These modules are fully customizable for integration into OEMs' existing systems. Higher level mechanical, optical, and electronic assemblies are also available for customers looking to improve ...

Shop DigiKey's large in-stock selection of Laser Diodes, Modules. View inventory, pricing and order now for same day shipping!

The BlueLyte from Global Laser Solutions LTD provides a user friendly, reliable & compact laser module in the Violet/Blue wavelength range with a number of market leading features.

High-performance blue and violet laser modules for precision applications. Explore solutions designed for unmatched accuracy. Power your projects!

Laser Diode 30Pcs 5V 650nm 5mW Mini Red Dot Laser Head, 6mm Outer Diameter Laser Module with Leads, for Arduino Laser DIY Electronics Projects, High-Stability Red Laser Diode

The warranty period of laser module is one year. If you have any quality problem (Except individual situation like using the laser module more than 30 minutes per time and casue the damage), please ...

Get the best deals for Blue Laser Diode Module at eBay . We have a great online selection at the lowest prices with Fast & Free shipping on many items!

With wavelengths from 415 to 495 nm, our blue lasers provide unmatched versatility for precise materials processing, superior metal absorption, and high-resolution imaging.

405nm, 450nm, 490nm blue laser modules are available with various output power values from <math><1\text{mW}</math> to 100mW. They show good MTTF, stability, great beam shape for performance quality priority.
