

## Number of cable tray tees

## Number of cable tray tees

Cable Tray Fitting - Tee NOTE : Equal or un equal tees can be supplied. When ordering state widths W1xW2xW3

Cable tray length is selected based on the load to be supported, the distance between the supports (also referred to as the span), and handling and installation constraints.

Refers to the approximate height of a cable tray used for specifying. Selecting a specific height will show cable trays with that height, as well as cable tray accessories compatible with that height.

We offer a range of cable crossovers and tees, available in both equal and unequal measures, for light, medium, and heavy duty cable tray systems in widths of 50mm - 900mm.
