

## Optical Communication Module Bracket

### Overview

This custom die cast module bracket is purpose-built for optical communication equipment, serving as a precision structural component for optical transceivers, data modules, and network devices. Corning has a wide variety of hardware solutions to choose from to fit your cabling needs. Manufactured from premium-grade zinc alloy via high-pressure die casting, the bracket delivers. Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. It provides state-of-the-art functions, services, and safeguards s (OCM to OCM or OCM to LM). With four bulkhead FC input connectors, the Model 9096 gives you quick, convenient, and secure couplings between connectorized fibers.

## Optical Communication Module Bracket

Everything you need to build an optical network from end-to-end.

Corning OptiTip® module rack- and wall-mountable solution is a modular set of factory-terminated components that can be easily configured into flexible point-to-point and point-to-multipoint optical ...

Custom precision die cast module bracket made of high-quality zinc alloy. Features tight dimensional tolerance, precise slot geometry, and robust mechanical strength.

CommScope's OMX solution gives the capability to splice and patch fibers in a compact footprint. It's a flexible optical distribution frame that enables the service providers to quickly respond to the ...

‘ Robust and dedicated communication links to Logic Module for secure data transfer.‘ Inherent on-board diversity features eliminate common cause failure vulnerabilities.‘ FPGA technology ensures ...

Integrated circuits and reference designs help you create a smaller and faster optical module design used in high-bandwidth data communication applications. Whether you are creating a 100-Gbps or ...

Modules and panel accessories include patch and splice modules, adapter plates, pigtail assemblies and fiber management optical cassettes.

Talk to a knowledgeable OCC Expert that can find or customize a product to fit your specifications. 800-622-7711.

The 9096 Fiber Bracket is based upon feedback from our own fiber-optic engineers. With four bulkhead FC input connectors, the Model 9096 gives you quick, convenient, and secure couplings between ...

Corning has a wide variety of hardware solutions to choose from to fit your cabling needs. Choose from racks, panels, modules, splice trays, ethernet fiber switches and other structured cabling components.
