

## Optical Network Switch OSFP Overseas Warehouse

### Overview

The twin-port OSFP closed finned top transceiver is used in Ethernet air-cooled switches. Featured with low latency, low power, and reliability, it can link upward in spine-leaf architectures for switch-to-switch applications, downward for top-of-rack switch links to Ethernet network. US and EU local warehouses offer 3-day delivery for around areas. Engineer Teams provide 5x 24-hour tech support to tackle your most complex issues and provide tailored networking solutions. 200G DWDM Without 100G?
