

Optical transceiver and optical module 100 km

Optical transceiver and optical module 100 km

Mouser offers inventory, pricing, & datasheets for 100 km Fiber Optic Transmitters, Receivers, Transceivers.

The 100GBASE-PLR4 optical transceiver module supports link lengths of up to 10km over single-mode fiber (SMF) with MTP/MPO-12 connector. This transceiver is compliant with SFF-8636 and QSFP28 ...

The Cisco QSFP-100G-SR-S Module is a pluggable optical transceiver with a duplex LC connector interface supporting link lengths of 70 and 100 meters on laser-optimized OM3 and ...

Most 100 G Ethernet optics you'll encounter in data centers and enterprise backbones use this housing. In short: if you want a 100 Gbps Module that "just works" across mainstream switches, ...

This module contains 4-lane optical transmitter, 4-lane optical receiver and module management block including 2 wire serial inter-face. The optical signals are multiplexed to a single-mode fiber through ...

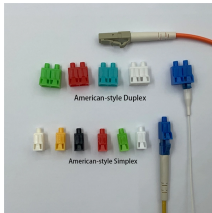

The 100Gbps QSFP28 EZR4 Optical Transceiver is designed for ultra-long-distance optical communication, enabling 100G Ethernet transmission over single-mode fiber (SMF) with a reach of ...

A complete guide to 100G QSFP28 transceivers covering types, specs, reach, compatibility, and how to choose the right module for data center and telecom networks.

The 100GBASE-ZR4+ Compatible QSFP28 Optical Transceiver Module is designed for use in 100GBASE Ethernet throughput up to 100km over single mode fiber (SMF) using a wavelength of ...

Our 100G QSFP28 eZR4+ optical transceiver module offers an extended long-distance data transmission of up to 100km as well as to overcome high optical fiber loss up to 34dB!

TARLUZ QSFP28-100G-ZR-P optical transceivers are high-performance, pluggable, four-channel QSFP28 optical modules designed for linkage of 100Gbps Ethernet up to 100km via single-mode ...

The 100GBASE-ZR4+ Compatible QSFP28 Optical Transceiver Module is designed for use in 100GBASE Ethernet throughput up to 100km over single mode fiber ...
