

Outdoor power distribution box xlw-12

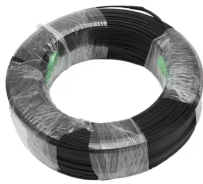

Outdoor power distribution box xlw-12

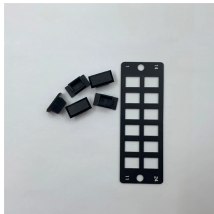

XLW integrated distribution box is an upgraded outdoor type distribution box according to power grid construction and operating experience in the line with safety, economy, reasonable, reliability.

Installed outside, widely used in power stations, substations, petroleum, chemical industry, metallurgical industry, machinery, and other industrial and mining enterprises and residential areas for electric ...

The xlw electric panel outdoor meter box is ideal for protecting electrical components from damage when faults or short circuits occur in the system. Once the circuit breaker detects a fault, it automatically ...

XLW-12 type cable branch box is specially used in the cable node of 12KV cable system to distribute electric energy.

XLW outdoor electrical panel box/power distribution box is applicable to the final stage of three phase four wire electric power system with AC frequency of 50 Hz, Voltage of 380V.

Ideal for three-phase low-voltage 50Hz systems, voltage 380V or 660V, current up to 630A for power and lighting distribution. Suitable for low-voltage control systems.

XINGSHENG Electrical XLW series outdoor power distribution cabinets are suitable for outdoor environments and are used in three-phase three-wire, three-phase four-wire, and three-phase five ...

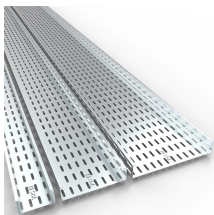

More durable and robust
The outer layer is made of environmentally friendly PVC, which is soft and elastic. It can be stretched without damage, so you can use it with confidence.

The XLW outdoor distribution box is primarily installed outdoors as part of a three-phase, three-wire, four-wire, or five-wire low-voltage power distribution system with AC 50Hz, rated voltage of 380V or ...

The XLW outdoor box has a waterproof cover with a gap for heat/moisture control, featuring inner/outer doors; the outer with waterproof strips, and the inner for instruments. Available in floor-standing/wall ...

XLW outdoor power distribution box (cabinet) is a distribution equipment designed specifically for outdoor environments, widely used for power distribution and supply in various power, lighting, ...
