

Price list for SFP industrial switches for data center interconnection

Price list for SFP industrial switches for data center interconnection

Ethernet Industrial Switches are key components for networking in harsh environment. With high temperature tolerance, strong EMI resistance and dual DC power supplies, the IFS Industrial ...

Items in stock for replacement can be shipped within 1 business day. The IE5100-24TF features 24x 10/100/1000BASE-T copper ports, 4x 100/1000BASE-X SFP ports in a 1U case, which is designed ...

Find your sfp+ network switch easily amongst the 385 products from the leading brands (Advantech, Kontron, ELMA, ...) on DirectIndustry, the industry specialist for your professional purchases.

The Phoenix Contact 1085173 is a compact Ethernet switch with four RJ45 ports and one SFP port. It supports up to 1 Gbps speeds via 10/100/1000 Mbps protocols, featuring automatic speed detection, ...

Supporting both IPv6 and IPv4 protocols, the IGS-6325-20S4C4X helps data centers, campuses, telecoms, and more to experience the IPv6 era with the lowest investment as its network facilities ...

Explore industrial fiber optic Ethernet switches from a direct manufacturer. SFP, single-mode and multimode fiber switches available in unmanaged and managed designs.

The SW-584 is ideal for factory automation, marine environments, vehicle networks, or long-distance links, especially when connecting remote devices via fiber. It supports fiber runs via ...

Build reliable industrial networks with rugged Ethernet switches for Layer 2/3 switching, PoE, and more.

Please view our full RLH price list and contact us at info@fiberopticlink if you have any questions or special project needs.

Layer 3 Routing Support
Cybersecurity Network Solution to Minimize Security Risks
Modbus TCP Provides Flexible Network Connectivity For Factory Automation
1588 Time Protocol For Industrial Computing Networks
AC and DC Redundant Power to Ensure Continuous Operation
Digital Input and Digital Output For External Alarm
Effective Alarm Alert For Better Protection
Redundant Ring, Fast Recovery For Critical Network Applications
IPv6/IPv4 Dual Stack
Robust Layer 2 Features
The IGS-6325-20S4C4X supports redundant ring technology and features strong, rapid self-recovery capability to prevent interruptions and external intrusions. It incorporates advanced ITU-T G.8032 ERPS (Ethernet Ring Protection Switching) technology, Spanning Tree Protocol (802.1s MSTP), and redundant power input system into customer's industrial au...
