

Price of OPGW optical cable vibration damper in Suriname

Overview

GL FIBER vibration dampers are designed for efficient transfer and dissipation of energy over a wide spectrum of frequencies. They feature all aluminum clamp construction to match expansion/contraction of conductor and break-away bolts for easy installation and proper torque. Overhead power lines are affected by wind, ice, low temperature and other meteorological conditions, causing the lines to vibrate and dance. The vibration frequency is high but the amplitude is small. Vibration dampers work to cancel damaging fatigue caused by wind-induced vibration. Most tuned damping devices operate best near their natural. IEC describes the Stockbridge damper as a system consisting of a messenger cable with two masses at its ends and a clamp that supports them; this clamp is attached to the conductor or earthwire with the purpose of reduction of the aeolian vibration on the conductor.

Price of OPGW optical cable vibration damper in Suriname

Shop high-quality OPGW dampers from reliable suppliers. Durable, efficient, and affordable solutions for your transmission line needs. Wholesale available.

As a factory specializing in producing Vibration Dampers and Armour Rods, we offer high-quality solutions for power transmission lines. Trust us for reliable and efficient products.

You can get the price list and we will contact you within one working day.

Vibration damper for opgw: a vibration damper is used to reduce the vibration caused by wind or other external factors. The damper is made of high-strength aluminum alloy and is designed to withstand ...

We manufacture a wide range of hardware fittings for OPGW Optical Ground Wire, including Suspension and Tension Assemblies, Down Lead clamps, Earthing Clamps, Splice Enclosure, Reinforcing Rods, ...

Scope of application: Suitable for suppressing the vibration of wires and ground wires on overhead power lines. User guides: ①. The anti-vibration hammer cannot be ...

We offer a full range of AB Cable (Aerial Bundled Cable) accessories and fittings which conform to NFC and IEC standards. These products are available for all varieties and sizes of AB Cables. Fittings are ...

This damper is especially designed for installation with ADSS fibre optic cables, improving the performance of the conventional stockbridge vibration damper when used with this kind of cables.

With wide frequency range, the 4D vibration damper can highly consume vibration energy, and effectively dissipate the energy caused by cable Aeolian vibration, reduce cable vibration horizontal, ...

OPGW Vibration Damper Vibration dampers work to cancel damaging fatigue caused by wind-induced vibration. Most tuned damping devices operate best near their natural frequencies.
