Higher demand for electrical and electronics (E& E) products was the main driver of Malaysia's trade growth in 1H 2025. E& E exports increased by 16.3% YoY, while imports grew by 32.2% YoY.

Tables 2 and 3 show the breakdown of Malaysia's top five export and import markets in 9M23, which constitute 68.5% of Malaysia's total exports and 68.3% of total imports during the period.

With 40 per cent of aerospace industry growth coming from Asia-Pacific alone, and a collective GDP of four ASEAN countries exceeding US\$1 trillion by 2030, the future of the industry is in Asia.
