

Rebranded Industrial Switch LPO

Overview

The LPO series toggle switches offer a variety of switching functions, SPST, SPDT, DPST, DPDT, and both contact rating of 15A/125VAC and 20A/125VAC are available. One of the most groundbreaking network innovations driving transformations of data centers in 2025 is Linear Pluggable Optics (LPO)—a Digital Signal Processor (DSP)-free optical solution designed to optimize power, cost, and latency. At Dell Technologies, we are excited to offer fully supported. LOWELL, Mass. 25, 2024-- MACOM Technology Solutions Inc. (“MACOM”), a leading supplier of semiconductor products, announced a switch-to-server interoperability demonstration of its linear drive 100G per lane components at the Optical Networking and Communications Conference. Ruijie offers next-generation industrial Ethernet switches designed for harsh industrial environments, providing flexible full-gigabit access as well as 10GE uplink ports, and supporting a wide operating temperature range and surge protection. As a premier industrial Ethernet switch manufacturer, we engineer our devices. Linear Pluggable Optics (LPO) has emerged as a promising solution to address this challenge, offering a more efficient way to move data within server racks.
