

Revenue from Micro-module Data Center

Overview

The Micro Module Data Center Solutions market size was approximately \$7.5 billion in 2025, and analysts project a robust growth outlook with a CAGR of 14.8% through the 2026-2033 market forecast, driven by digital transformation, sustainability mandates, and the surge in edge. Micro Module Data Center Solutions are compact, pre-engineered data center units—typically ranging from 5 to 30 kW—that integrate power, cooling, networking and security in a single modular enclosure. Their relevance stems from the accelerating demand for edge computing, rapid deployment timelines. Advanced Micro Devices reported first-quarter results that topped analysts' estimates. For the second quarter, the chipmaker said it expects about \$11.2 billion in revenue, beating expectations.

Revenue from Micro-module Data Center

This in-depth report provides a complete analysis of the global Micro Module Data Center Solutions market, offering critical insights into market size, share, demand, industry development ...

Market Size & Growth: Current market value stands at USD 35.18 billion (2024), projected to reach USD 128.70 billion by 2032 at a CAGR of 17.6 %, reflecting robust demand for modular data centre ...

Key drivers of the modular data center market include the rising demand from colocation providers, growing need for energy-efficient data centers, increasing adoption by SMEs and ...

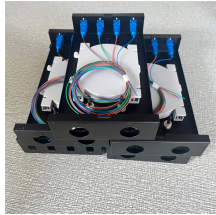

Explore the dynamic Micro Module Data Center Solutions market analysis, including size, CAGR, drivers like edge computing and IoT, key trends, ...

The modular data center market is projected to expand to USD 143.08 billion by 2034. North America leads the market with over 36.25% share in 2025.

The Micro Module Data Center Solutions market size was approximately \$7.5 billion in 2025, and analysts project a robust growth outlook with a CAGR of 14.8% through the 2026-2033 ...

AMD CEO Lisa Su said in the statement that the data center unit is now the "primary driver of our revenue and earnings growth." "Looking ahead, we expect server growth to accelerate ...

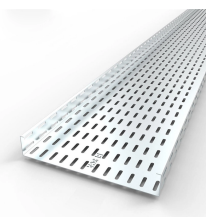

Micro Module Data Center Solutions Market Revenue was valued at USD 5.2 Billion in 2024 and is estimated to reach USD 12.3 Billion by 2033, growing at a CAGR of 10.2% from 2026 to 2033.

The global modular data center market size was estimated at USD 29.04 billion in 2024 and is anticipated to reach USD 75.77 billion by 2030, growing at a CAGR of 17.4% from 2025 to 2030.

Explore the dynamic Micro Module Data Center Solutions market analysis, including size, CAGR, drivers like edge computing and IoT, key trends, restraints, and regional growth forecasts for ...

Our study frames the modular data center market as purpose-engineered, factory-integrated modules housing IT, power, and cooling systems that can be shipped, craned into place, ...
