

## ST5000 Hidden Interfaces

## ST5000 Hidden Interfaces

I already have a Ray ST5000+ Auto Pilot which will get changed out at some time in the future but I was going to try to work with it in the mean time. What confused me was the way the NMEA connections ...

Here's what the ST5000 offers in terms of interfaces: Along the left side you'll find audio in/out, two USB 2.0 ports, a Kensington-style lock, a IEEE1394 "Firewire" port, modem and 10/100/1000 LAN (yes, ...

Using the ST5000 Serial Port Settings Graphical User Interface Setting the battery-backed clock Commands and Items Saved between Reboots CSBF (Balloon) Command and Response ...

Fujitsu Stylistic ST5000 Series Tablet PC offers pen-based computing, wireless connectivity, and a secure environment. Learn all about its features, setup, and usage in this user guide.

Turns out technical information about these interfaces are not released. In my case the interfaces are connected to the switch board via network cable, so needs checking.
