

# **Specifications of Low-voltage PZ30 Distribution Box**

## Specifications of Low-voltage PZ30 Distribution Box

This product is suitable for single-phase three-wire or three-phase five-wire terminal circuits with AC frequency of 50Hz, rated working voltage of 220V or 380V, and rated current not exceeding 125A., ...

Chint PZ30-15 distribution box has become the mainstream choice for domestic low-voltage power distribution with its high cost performance and reliable performance.

PZ30 lighting distribution box is suitable for frequency 50HZ, rated voltage 500V and below, load current is not greater than 100A single-phase and three-phase circuits, for power and lighting, motor control, ...

PZ30 Low Voltage Distribution Box The PZ30 Series Low Voltage Distribution Box is a modular electrical cabinet designed for safe and efficient power distribution in 220V/380V circuits. With modern ...

PZ30 distribution box is a terminal combination electrical distribution box, suitable for various types of residential buildings, high-rise buildings, hotel buildings, shopping malls, hospitals, industrial and ...

The distribution box is composed of a box, molded-case circuit breakers (MCCB), miniature circuit breakers (MCB), residual current circuit breakers (RCCB), N busbars, PE busbars, insulated wires, ...

This empty box is specially designed for installing circuit breakers and leakage protectors, offering centralized and safe power distribution and component protection for residential electrical systems.

PZ30 is a 9mm modular modular distribution box, which is a low-voltage terminal power distribution equipment. It is suitable for AC 50Hz, 220V/380V (single-phase three-wire / three-phase five-wire) ...

Technical specifications for Indoor Wall Mounted Electrical Control Household Power Distribution Box PZ30 Low Voltage Switchgear | PZ30 | . Reliable power distribution equipment from Yueqing-based ...
