

UK Campus Network PoE Switch Anti-Stalking

UK Campus Network PoE Switch Anti-Stalking

Stalking is an insidious and psychological crime; it is life-changing and life-taking. 94% of Criminal Femicides were stalked before being murdered. Stalking behaviours are not being ...

An easy and economical solution to this issue is to include multi-port switches with PoE-capable ports as it provides great flexibility and lowers the cost of installation.

These switches support high-speed data transmission, Power over Ethernet (PoE+), and network segmentation, ensuring smooth and secure communication across campus.

Some anti-stalking features are not enabled by default, and some require manual intervention to scan for devices. We provide suggestions for how these features could be improved, as well as ideas for ...

Make sure your school or college has proper network switches and switching infrastructure for reliability, security and resilience.

In this video, we show how a university solved long-distance Ethernet and PoE limits using a Web Smart Long-Range PoE Switch—without running fiber or chaining multiple PoE extenders.

As the UK's leading authority on stalking, and founding personal safety charity, we are a violence-against-women-and-girls specialist, and have helped universities design tailor made ...

While many other manufacturers offer a very limited line of standardized low voltage PoE products, Antaira provides a wide array of low voltage, all-in-one PoE products supporting campus safety and ...

We recommend the development of a collaborative and comprehensive response to stalking on campus that includes creating a campus stalking policy. A university or college stalking policy is one of the ...
