

Under-stage optical distribution box

Under-stage optical distribution box

Fibramérica's Optical Termination Boxes and Optical Rosettes represent a trusted solution for companies looking to strengthen their telecommunications infrastructure.

We offer a wide range of 1-24 core FDB boxes and ODF cabinets for indoor/outdoor FTTX deployment. Durable, IP65 rated, and easy to install. Browse our models and get a wholesale quote.

This 16 Ports Pre-Connectorized Optical Fiber Distribution Box is the ideal HUB solution for modern FTTx, ODN, and pre-connectorized network architectures, providing efficient fiber management, fast ...

Achieve successful cable management, handle high amounts of fiber cable and add density to fiber frames with the new DCX Optical Distribution Frame (ODF) System which features innovations like ...

Optical Distribution Box 8 (ODB-8): This light and compact wall mountable box terminates up to four fibers. It is designed to serve as a building entry point for FTTH applications but is also a perfect ...

Fiber distribution box is made of high-strength engineering plastics, anti-UV, anti-aging ability. The distribution box is sealed adopts buckle + two screw type structural seals, and the left and right ...

Optical Distribution Frame (ODF) is integrated components in any fiber management system to handle termination and cross-connection of cables. Pre-terminated ODFs with cables are pre-installed with ...

Application Description: Optical Distribution Point ODP Box provides a connection point between distribution cables and drop cables at the subscriber access point in fiber optic network.

The Corning® Optical Distribution Frame is optimized for high-density cross-connect applications.

Large capacity weather-resistant cabinets designed to protect fiber optic splices in both buried and aerial distribution systems.
