Ushi Fireproof Cable Tray

	Cable trays are intended for the construction of fire-resistant cable paths with surface cable laying. Cable paths are constructed as standard or lightweight cable paths.
	Please click the appropriate link below to view the catalog section as a PDF.
	Its innovative two-part design installs easily around non-compliant cable tray penetrations, rapidly restoring fire resistance. Ideal for retrofit environments, the EZ Path Cable Tray Retrofit Device ...
	Aluminum is the preferred material for cable tray as it is sturdy while being lightweight and resistant to corrosion. Aluminum cable tray works in many settings and is easy to install and maintain.
	We design custom cable enclosures that protect against fire & blasts. Cost-effective protection with quick installation and NEC & NFPA compliant solutions.
