We build and operate critical infrastructure for intra-African and international connectivity, enabling your business to expand seamlessly across borders, access new markets and deliver reliable digital ...

The West Africa Cable System (WACS) is a submarine communications cable linking South Africa with the United Kingdom along the west coast of Africa that was constructed by Alcatel-Lucent.

This major investment will complete our existing submarine and pan-African terrestrial infrastructures to provide access to international connectivity in a redundant fashion throughout the west coast of Africa.
