

What is the retail price of an optical module

Overview

Branded vendor modules (Cisco/HPE/Juniper) can be priced substantially higher through official channels, while compatible SFPs sold on marketplace and third-party distributor sites commonly retail for single-digit to low-two-digit US dollars per unit. Understanding Optical transceiver Pricing helps procurement, network planning, and total cost-of-ownership decisions. This article compares typical cost ranges across speeds and transceiver types, explains why prices vary, and gives practical guidance for choosing the right optics for a given. Understanding the cost of optical modules has become a formidable challenge for IT and procurement professionals. Vendor proliferation, rapid technology advancement, and shifting demand make for an uncertain pricing environment. The global optical module market size was valued at \$13.7 billion during the forecast period MARKET INSIGHTS The global Optical Module Package Market was valued at 8942 million in 2024 and is projected to reach US\$ 20220 million. FS provides 1/2/4G transceivers modules in SFP form factor, supporting transmission distances from 100m to 120km over SMF/MMF fiber and enabling low power and cost-effective connectivity solutions.
