On the front of the switch, we get a console port as well as eight SFP+ ports for our 10G. You can also see these have 1/2.5G indicators as well as ...

On the front of the switch, we get a console port as well as eight SFP+ ports for our 10G. You can also see these have 1/2.5G indicators as well as the 10G option. This is a managed switch, ...

The Xike SKS7300-8GPY4XGS is a Layer 2 intelligent network management switch featuring VLAN, port aggregation, and 2.5G/10G high-speed transmission capabilities.

Only initial testing so far, but working well. The only thing of mention is a "blip" in network traffic for around 30 seconds, but I couldn't confirm if it was the switch or not, so giving it the benefit of the doubt.

Effortless Setup: This easy smart 2.5 gb switch simplifies network management. Use the web interface to optimize performance with VLAN (The number of VLANs is capped at a maximum of 32), QoS, link ...

An 8-port, Layer 2 switch made for 10G SFP+ connections.

Only initial testing so far, but working well. The only thing of mention is a "blip" in ...
